***All rights Reserved
No part of this Motion Picture may be reproduced
or transmitted or shown in any form
or by any means without prior written permission of
Thin Ice Climate Project.***

**Downloaded copies of the film for the Earth Day
screenings on April 22nd and 23rd, 2013 are intended only
for viewing during this time period.**

The Thin Ice DVD, which also has subtitles in 5 languages, can now be downloaded from a server which is designed for multiple downloads. Just click on the following link:

https://s3-ap-southeast-2.amazonaws.com/thinicedvd/VIDEO_TS.zip

The DVD file is downloaded as a zip file (VIDEO_TS.zip). You need to double click on this (or extract) to unzip it to reveal the VIDEO_TS file.

We have also made the **high quality (2.7 GB) MP4 version of the film** (without subtitles) available on Vimeo for download. If you want to download this version from Vimeo, then follow these instructions: Click on or go to: <https://vimeo.com/57649986>

You should find the DOWNLOAD option beneath the film video screen. When you click on this, you get various files.

For a high quality version, select download the 'Original.MP4 File' (960 x 540 pixels).

For a medium quality version (much smaller file), click on the SD.MP4 file (640 x 360 pixels).
